

## ABSTRACT OF THE DISCLOSURE

Higher content of Low Methoxyl Pectin (LMP) is used to form jelly bait for carrying insecticide to kill cockroaches. The LMP jelly bait benefits from maintaining its softness for longer periods of time which result in high yield in killing cockroaches. The LMP jelly bait can be injected with a syringe into the crevices where the female cockroaches and nymphs hide to achieve the best effect in eradication of cockroaches

Certificate of Mailing  
I hereby certify that this Fee(s) Transmittal is being deposited with the United States Postal Service with sufficient postage for first class mail in an envelope addressed to the Box Issue Fee address above on the date indicated below.
